EVALUATION SHEET

Evaluation of the activity/task

Our students had opportunity to describe one of the most famous nature locality near Bratislava which is important in the Slovak and European history from the Roman and medieval period. They would like to provide more detailed information during the Slovak meeting also about the connection this place and the communist period, because there was built after the velvet revolution the monument in memory of the people who tried to illegally cross the border and go to Austria and were shot dead by the border police.
